08/09 forecast	1081	1077	1072	1126	1106	1161	1161					

Highlights this period

1. Key indicators continue to show a rise in all indicators – averaging 5-10% growth month on month
2. BAU invoicing and content update. The increase in number of content providers is increasing the time spent on this activity.
3. Web site monitoring continues to be a BAU activity but I am currently getting around 50 spam updates per day to News Items. These spams advertise 'dodgy' web sites so I aim to remove them asap – but again, this takes time.
4. Activities 1 and 2 above are impacting on Phase 3 Action Plan (increase revenue from advertisers). As advised last month, this is about 2-3 months in delay.
5. Extended web site usage to include 'community notices' e.g. virus alerts, police reports etc
6. Web page design for one new advertiser
7. Polling question on Village Plan extended to 30 Nov. Does the Parish Council have another question waiting to go?

Outlook for next period

1. BAU invoicing, content update and monitoring (spam removal)
2. Generate user friendly blurb extolling the new advertising options and the above. Also, distribute this blurb to Parish Councillors who may be able to seek local contacts – forecast end Oct.
3. Generate list of potential prospects – aiming for ~100 with 25% +ve return – forecast mid-Dec
4. Distribute blurb on new advertising options – forecast end Jan to avoid Christmas slow down
