

District Councillors Report 21 November 2016

Devolution – well this just seems to be the word of the day. As you know part of the Norwich councils have voted against this but Suffolk still continues. The County Councillor will probably know more as they are the driving force behind this. By the time I come on Monday (and I may be quite late) the vote at Mid Suffolk will have been taken but despite Norfolk's withdrawal Suffolk is still trying to keep its devolution bid alive

Different ways of working are also a buzz word and the IT and computer seems to be gathering pace. I do wish the Broadband whether it be faster or not would keep up.

I attended the AGM of the Citizens advice Bureau and have a booklet on the achievements. Debenham is mentioned in positive terms and I know I have signposted a couple of people to it who had tried to get hold of the Ipswich Branch and didn't realise the Debenham Outreach existed. Thanks to the PC for their donation and they are mentioned in the Accounts specifically as a donor as well as in their booklet.

I have sent the PC details for the NHS transformation plan and hope this will be available on your website as I do think everyone should see the proposals for our health care

Planning Application – the Butts 34 houses. I hope update you Monday if it hasn't already been updated on the website

Kathie Guthrie

District Councillor
